

Chronicles #2

Chronicles is a weekly format of works that attempt to trace the sounds and happenings on a weekly basis.

Fresh raw materials were collected every week including some recordings sent by the listeners of this program. The works compress a weekly sonic experience to 4-5 minutes.

Sources for the work include field recordings, Sampled radio, soundtrack from movies and series, toys, records and synthesizers.

This is the 2nd composition, created during the previous US elections with some related materials. The work was commissioned by RadioArt, KolHaCampus 106fm
